Overview

This document is provided to aide in an Alternate EVV Vendor's integration efforts strictly relating to the Payer – Georgia Department of Community Health (GA DCH).

Please make sure you have reviewed Netsmart's **Implementation Guide** as well as our **Rendered Services Data Dictionary**, which can always be found on the following site:

Alternate EVV Vendor Integration

If Alternate EVV Vendor elects to transmit XML, please refer to the Georgia DCH specific **Typecode Data Dictionary** for all typecode values that must be transmitted for certain fields. Pipe-Delimited (.txt file) expected values are also listed in this document.

Expected Values

The below table presents expected values for certain fields, taken from the Rendered Services Data Dictionary. If Alternate EVV Vendor elects to transmit XML, please pay special attention to the typecode value
